Experience Herding Like You Never Have Before

Whether you are just starting out or an experienced herder, Ranch Camp will benefit you and your dog. Unlike traditional training methods, Ranch Camp is set up to emulate a working ranch. You and your dog will learn to work together in groups and in one-on-one sessions with trainer Dawna Sims to effectively handle through real ranch type circumstances. This unique approach will illuminate the dynamics of herding for both you and your dog - and that skill set carries right into the trial arena!

Just like any other Ranch, you'll be well-fed and busy throughout the day—and when the work is done, you and your dog can relax with other herders around the campfire.

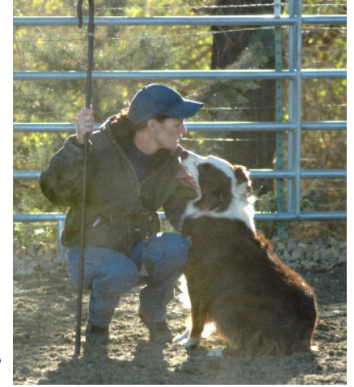

“These two days with Dawna I have learned more about herding than I have in the last two years. My dog is so much happier using Dawna’s methods.”

- Herding Clinic Attendee, February 2008
